

It's assessment time.

All of the fifth, sixth, seventh, and eighth graders will be taking math and reading assessments during the weeks of February 22 and March 1. February 23-25 the eighth and sixth grades will be taking math assessments. March 2-4 the seventh and fifth grade will take the math test. During the same dates the other grades will take the reading assessments. It seems like students don't do as well if they have to make up tests at a later date than they would have done if they had taken the test with their class so hopefully we will be past all the sickness and appointments can be made at some other time. A healthy breakfast with lots of protein will help the students do their best. It would be smart to avoid sugar-laden cereals. I will let you know how your child did on the math assessment when I see you at parent teacher conferences.
